SUPPLEMENTARY INFORMATION:

A. Purpose

As implemented in Federal Acquisition Regulation (FAR) Subpart 23.10, Executive Order 13514, Federal Leadership in Environmental, Energy, and Economic Performance, signed on October 5, 2009 (74 FR 52117, October 8, 2009) and Executive Order 13423, Strengthening Federal Environmental, Energy, and Transportation Management, signed on January 24, 2007 (72 FR 3919, January 26, 2007), mandates compliance with right-to-know laws and pollution prevention requirements; implementation of an Environmental Management

System (EMSs); and completion of Facility Compliance Audits (FCAs).

This information collection will be accomplished by means of FAR clause 52.223-5. This clause requires that Federal facilities comply with the planning and reporting requirements of the Pollution Prevention Act (PPA) of 1990 (42 U.S.C. 13101-13109) and the Emergency Planning and Community Right-to-Know Act (EPCRA) of 1986 (42 U.S.C. 11001-11050). Additionally, this clause requires contractors to provide information necessary so that agencies can implement EMSs and complete FCAs at certain Federal facilities.

Public comments are particularly invited on: Whether this collection of information is necessary for the proper performance of functions of the Federal Acquisition Regulations (FAR), and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the

collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

B. Annual Reporting Burden

The estimated annual reporting burden is slightly decreased since it was originally published in the Federal Register at 74 FR 48745, on September 24, 2009. The adjustment is made based on current data and consultation with Federal Government subject matter experts familiar with the requirements under this information collection.
